

Heaven On Earth

Verse 1

I've been asleep
Head in the sand
Watching the time just ticking
Clock runs around
Days in and out
Can't really call it living

Pre-Chorus 1

Somewhere I let light go dark
But here's where my new story starts

Chorus

Take my life and let it be
Set on fire for all to see
Break me down build me up again
Don't leave me the way I've been
Take my heart into Your hands
Come and finish what you began
Til I seek your kingdom first
Til I shine shine
Like Heaven on earth
(Like Heaven on earth)

Verse 2

I wanna wake I wanna see
All of the ways You're moving
Show me the need
'Cause I wanna be a part of what You're doing

Pre-Chorus 2

In my heart let Kingdom come
Not my will but Yours be done

Bridge

Help me move when I should move
Help me rest when I should rest
Help me give when I should give
All of me nothing less
Help me speak with grace and truth
Help me fight for those who can't

Help me love the way You love
Never holding nothing back

Ending

Like Heaven on earth
Like Heaven on earth
Like Heaven on earth
